

Indian Institute of Technology Palakkad

Constitution of Class Committees for the semester Aug- Dec 2021

Class Committees consisting of a chairperson, student representatives and course instructors are constituted every semester. The basic responsibilities of the class committee are:

- To review periodically the progress of the courses, to discuss issues concerning curricula and syllabi and the conduct of the classes including the method of teaching in the respective courses for ensuring effective learning.
- The mode of assessment for the course will be decided by the teacher in consultation with the Class Committee, and will be announced to the students at the beginning of the semester.
- Each Class Committee will communicate its recommendations concerning the teaching-learning activity and students' performance and attendance to the Dean (Academics).
- The final Class Committee held after a week of the end semester examination, without the student members, will be responsible for the finalization of the course grades/semester results.

The Class Committee is required to meet a minimum of three times in a semester, first at the beginning of the semester, then once, twice or more during the semester to discuss teaching-learning aspects and the one after the end-semester examination to finalise the grades. The meeting at the end of the semester is to be held without participation of the student representatives. The chairperson of the class committee may invite the concerned Faculty Advisers to any of the meetings if needed.

Special Notes for the Current (Online) Semester Evaluation Policy.

Please remember that the courses running online will have a major continuous evaluation component - between 60% and 80%. This is expected to be done through regular short quizzes, assignments, tutorials etc. The details of the continuous evaluation may be decided by the instructor in consultation with the class committee and minuted in the first meeting.

Attendance Policy. The senate norms for attendance suggests the course instructors should inform the students of their attendance at the time of each test and warn them about possible W grades in case of their falling short of stipulated 85%.

The minimum attendance requirement stays at 85% for online classes also. But considering the technical difficulties in attending the live online classes, the instructors may allow the students with genuine excuses to reclaim their lost attendance for live online classes by demonstrating that they have studied the material that was discussed in the lost classes. This may be done via assignments, scribe notes, viva etc completed within one week of the missed class. This policy may also be informed in

Indian Institute of Technology Palakkad

Constitution of Class Committees for the semester Aug- Dec 2021

advance to the class and minuted in the first class committee meeting along with the grading policy. The students with shortage of attendance may be warned about the same via email at least twice during the course (once after one-third of the course and once after two-thirds of the course).

In its first meeting, the Class Committee Chairman may remind faculty and student representatives about the above points.

The class committees constituted for Aug – Dec 2021 are as follows.

Associate Deans (Academics UG & PG)

September 02, 2021
